What makes our footwear so special?

There's wide fitting and then there's Cosyfeet!

Specially designed to fit and flatter swollen feet, our footwear is much wider, deeper and roomier than the wide-fitting footwear you'll find on the high street. We are a small, caring company with 39 years' experience of fitting swollen feet and legs.

ROOMIER THAN ANYTHING

you'll find on the high street

WHERE QUALITY & STYLE MEETS BLISSFUL COMFORT

We believe that swollen feet should have the most comfortable, stylish footwear possible. That's why we combine the latest trends with premium materials, expert shoemaking and advanced foot comfort technology. Thanks to innovations such as our 'hidden depth' design, our footwear fits swollen feet with ease but still looks stylish and streamlined.

ENDORSED BY UK EXPERTS

Cosyfeet comes highly recommended by a number of healthcare professionals including podiatrists, foot health practitioners and occupational therapists from across the UK. We are also recognised by the Healthy Footwear Guide, a collaboration between UK footwear brands and foot health professionals.

IS COSYFEET RIGHT FOR YOU?

Cosyfeet is specially designed to fit swollen feet. Some styles can also fit bunions, problem toes and bandaging. All our footwear has the same extra roomy width fitting (6E for women and 3H for men). But don't worry if you don't know your width fitting. Most of our styles are adjustable and can cope with a range of foot shapes and swelling. To put it simply, if you have swollen feet and you can't find footwear to fit, we can probably help.

OUR **extra roomy** FOOTWEAR

- Wider, deeper & roomier than any footwear on the high street
- Easy to get on & off swollen feet
- Fits a range of swelling thanks to adjustable fastenings
- Can also fit bunions, problem toes & bandaging
- Some styles are suitable for orthotics

FAQs

What fitting is Cofsyfeet footwear?

All our styles have an extra-wide fitting of **6E** for women and **3H** for men.

Don't worry if you don't know the exact width of your feet as most of our styles are very adjustable and can cope with a range of swelling and foot shapes.

What size should I order?

Most customers find that the shoe size they wore before experiencing swelling (e.g. size 6) is wide and deep enough to provide the extra room they need. If we don't offer a half size in the style you want, we recommend you order the smaller full size.

How do I order strap extensions?

If you have especially swollen feet we can supply matching strap extensions to lengthen the straps on most touch-fastening styles.

- To order women's strap extensions please quote **LX** followed by the style and colour.
- To order men's strap extensions please quote **MX** followed by the style and colour.

All strap extensions are **£4.80 per pair** (without VAT £4).

How does your 'hidden depth' sole design work?

The sole unit on our 'hidden depth' footwear allows the foot to sit below the sole line. This means that the extra depth is 'hidden' within the shoe so it still looks neat and streamlined.

Do I need to take care if I have diabetes?

Yes. We are aware of the problems that people with diabetes may have and so we offer footwear and socks with minimal seaming. However, not all our products may be suitable for your feet, so you need to make your own judgement or ask a medical advisor. Please run your fingers inside any item before wearing, checking for anything that may harm. After buying new footwear, wear it for 30 minutes to 1 hour at first, then inspect your feet for pressure marks or irritation. A hand mirror is useful so you can examine your whole foot. Gradually build up the wearing time. For more information visit **diabetes.org.uk**
